5 of 6 people found the following review helpful. Not for meBy Katrina D BakerTo say I dislike this book would be an understatement. It is just pictures of linens from her linen collection and HER estimated prices from 2003. There is no explanation of the different types of embroidery, identifying lace, dating a piece, or anything of that nature. In short, there is no useful information at all. This was the biggest waste of money. The book is not even set up in any particular order. Horrible!I have never reviewed a book on before, but I wish someone had written this for me and saved me the \$30+ it cost to pass the book onto the Goodwill. There is no knowledge to be gained from this book at all.1 of 1 people found the following review helpful. Good explanations. Good photosBy MaryCovers it all. Well
