Loving the treasure hunt!By JannieAfter inheriting many collectables and questionables from all of my grandparents I became curious to what things were, what they meant, and how much they could be worth. Since this is all new to me I have looked in many places for help in discovering

how and where to look for information. Leslie's book has been so much help and now that I have many items for sale in an antiques store, I also have her book to offer to help others who have been bitten by the bug! Jannie Hornby - Oregon Treasure Hunter! 2 of 2 people found the following review helpful. I'm an antique lover...By Margaret WI enjoyed this book. Each antique book has its own information to share with antique lovers. I especially like this one because I learned more about the antiques that I own. The author was direct in talking about the antiques and didn't add a lot of fluff. I prefer to read books that give you the information and not a long dissertation that has very little to do with what I want to know. I thought she did a GREAT job with this book. 0 of 0 people found the following review helpful. Delivers on its promise By Tracy needham Learning how to appraise on the spot is something you can only learn with time and experience because there's so many details you have to learn to look for, which vary by the type of item. But the author tells you where to go for free/low cost appraisals of items in the meantime--and she listed several sources I hadn't heard of before. I also appreciated the comparison of the different ways to re-sell items, particularly the scoop (including fees) on sites beyond eBay.
