Artificial Sunshine: A Social History of Lighting

Maureen Dillon : Artificial Sunshine: A Social History of Lighting before purchasing it in order to gage whether or not it would be worth my time, and all praised [Artificial Sunshine: A Social History of Lighting](#):

0 of 0 people found the following review helpful. Nice and interesting bookBy Svein SolhjellInteresting book. The author has a bit to many references to National Trust houses. She could have Limited these references to when she also has a picture to show.5 of 5 people found the following review helpful. A very surprising bookBy Christopher DiglioThe only reason I purchased this book was because I needed to do some research on artificial lighting for my literature term paper. However, once I started to read it I could not put it down. I never thought of artificial lighting the way I do now because this book goes into detail about how different types of light have throughtout history have helped make the world as we know it today. Give it a try it is well worth the money.

Book by Dillon, Maureen
