The one I purchased was slightly used but was in better shape than I expected.0 of 0 people found the following review helpful. An Excellent choiceBy Nirvanaforever2012It's an excellent book. I've wanted this book for a long time. Now I can build my team sets again. Thank you.0 of 0 people found the following review helpful. Great reference book that needs an updateBy Tom StreetmanI've used this edition for compiling team sets of the Houston Astros since buying it back around '99. I was looking on tonight for an updated release and was surprised one has not been published yet; a lot of cards have been issued since 1995!. A book as good as this one needs to be on the bookshelf of every serious collector.

A completely updated reference work for the many collectors specializing in cards of players from a particular team. Includes all major cards for the year. The only book of its kind!
