NASCAR HeavyBy David FredericksIf you collect NASCAR cards or diecast, this book may be useful. If you collect diecast sports racing and Formula 1 cars, like I do, don't buy this book. There are only a few F1 diecast and no sports racing cars in here. Out of my collection of about 100 racing cars, I found less than 10 in this book. The selection of manufacturers is very slim and mostly American. Even within manufacturers, the lists are incomplete.The print is very small, I had to use a magnifying glass to read most of it. This makes browsing somewhat

awkward.Overall, this book will not be of much use to me.1 of 1 people found the following review helpful. Must Have for NASCAR Die-Cast Collectors and Card CollectorsBy Justin E. SimonThis product is great for any NASCAR Die-Cast collector or Card collector. Guide is easy to use and contains a ton of information.
