6 of 7 people found the following review helpful. great beginner's bookBy Jena#39; HatchettThis was one of the first books that I read on guns. I brought no knowledge about guns to the read. This book answered so many questions and gave a good overview of basic gun information. I read other books, but this one was by far the most clear and consise.

I would recommend it to any beginner. The book does not assume any gun knowledge. The end result is a basic understanding of guns.0 of 0 people found the following review helpful.
