Big Lame Book of KnivesBy RoadWhoreLooks great on the cover but inside it is poor quality black and white low resolution pictures. Pages look like something you would expect to see on the walls of Cracker Barrel.

Very incomplete listing of knives from manufacturers and incomplete list of even some of the expected knife company's, Gerber, Cutco, etc. The prices are equally overly optimistic. Don't waste your time or money on this rag.0 of 0 people found the following review helpful. Value is all about this product.By CustomerGreat book for the knife collectors out there
