Look to other books for the story of the British gun and shooting traditions. Look to Nigel Brown for the background facts. 1 of 1 people found the following review helpful. A library in itself By John R. Moore This is the third in a three-volume collection. These books are important for gun collectors or even anyone with just an academic interest in the history of gun makers in England. They are well

researched and are a worthy high-end addition to a collector's library. The books are not inexpensive, but the information they contain is hard to find elsewhere, and they are excellent compendia of the subject, whether one's interest is rifles, pistols, or shotguns. 0 of 0 people found the following review helpful. GOODBY STELIOSI WAS EXPECTING TO HAVE MORE DETAILS FOR ALL THE BRITISH FIRMS (SMALL OR BIG FACTORIES) AND NOT ONLY FOR THE MOST FAMOUS. HAS TOO MANY OTHER DETAILS USELESS FOR MY OPINION, (TOO MANY PAGES WITH USELESS INFORMATION).

Final installment of the series Best source for history of British gunmakers New records of gunmaking firms from throughout the south of England and Scotland The final volume of the British Gunmakers series compiles the records of old and new gunmakers and expands the factual information highlighted in the first two volumes. It is illustrated throughout and offers new research on records of an additional 190 Scottish and English gunmaking firms, particularly from Birmingham and London.

"British Gunmakers Volume Three completes Nigel Brown's fantastic trilogy, which ranks as the most complete account of the activities of gunmaking in Britain ever produced." Shooting Times "The result of years of study, it records the archival knowledge of many long defunct gunmakers, for the first time in many cases. This is in addition to the archive records that were unavailable to the author when the previous volumes went to press." Sporting Rifle "The glossary of technical words and expressions relating to firearms and ammunition is the best I have seen in any gun book. It provides clear explanations of the meaning of not only the basic terms but also some of the more archaic ones whose use is generally confined to those within the trade. The trilogy is the most complete record of the British gun trade published to date." Classic Arms and Militaria "A compilation of the known history and existing records of a vast number of gunmaking firms, this final volume completes a set of what is undoubtedly the best reference available for those with an interest in British gunmaking... Packed full of information, this book is ideal for any gunmaking aficionado's bookshelf". Shooting Gazette About the Author Nigel Brown has been involved with the British gun trade, especially the London trade, for many years. For thirteen years, until 1991, he was legal advisor to, and subsequently secretary of, the Gun Trade Association. In addition, he sat on the legal and education team of WAGBI, now the British Association for Shooting and Conservation (BASC).
