Catalogue reviews

Some of the reviews received from customers, magazine editors and fellow stamp dealers. "Just received my 1st edition 'British Presentation Packs' catalogue and I would just like to say that I'm really chuffed with it! I have been waiting for a catalogue like this for a long time and it's been well worth it. Colourful, informative and packed with facts, in my opinion it's as good as any of the Stanley Gibbons catalogues - if not better!" Dave Bush, Norwich "The visually appealing nature of presentation packs makes the comprehensive listings easy and enjoyable to read... A quick check of the values in the catalogue reveals an impressive accuracy..." Sam Horton, Stamp Coin Mart Magazine
