It is strictly a scrapbook of merchandise that either was sold by the band or merchandise that never made it to production. Yeah, it's interesting to see... once. That alone makes it not worth the price. Find a sucker that bought it and look at his for 20 mins... that should be plenty.

I was very happy with the condition of the book. It made a great gift for a super fan of the group. Thanks and I would purchase again.13 of 13 people found the following review helpful. A rip-off in pure KISS fashionBy J. MieleFolks, 99% of this book is pictures of Kiss merchandise. Unless you want to pay good money to look at hundreds of pages filled with pictures of toys and magazine covers, save your dough. KISSTORY I is excellent, KISSTORY II is an absolute rip-off. Gene always seems to come up with new ways to suck the money out of your pocket, and this one is a classic. I've been a KISS fan since 1976 and will remain one until I die (no, I'll not be buried in a KISS Kasket) so trust me. This book is for two kinds of people - those who have tons of money to burn and nothing to burn it on, and those who feel they

must have EVERYTHING that has the KISS logo stamped on it.
