Better Books Out There.....By Shari M. LoweryI bought this book used, because I love looking at pictures of old antiques/vintage items. Nothing really new in the way of pictures. I enjoyed 300 Years of Kitchen Collectibles much better...that book had more pictures etc....I plan to resell this book because it just does not keep my interest.0 of 0 people found the following review helpful. Hard to find itemsBy Marlene R.I bought this...TEN years ago. is really behind, asking me to review it now.Even so, this is a useful book, if you have any collections from this era. I don't and never really did. I came across a few items and that prompted me to buy this book, but once I sold those items, this book languished on my shelf all these years. I think I actually donated this book to my library; I don't see it here on the shelf anymore.It is a valuable book, if you are into this era. Buy the newer version.
