Always a good read.By Mark CutrightAnyone interested in knives will love this publication. I like them so much I have them all from 1998 to the present. I find its a good book to leave in the restroom for the guys, but also belongs in any knife lovers library. The commentary can be a bit corny but the photos are nearly always great and the articles are generally good reads into what the industry is doing that year.

In its 31st edition, "The Knives Annual Book" has followed the progression of knives from traditional pocketknives to

custom bowies, autos, dirks, daggers and fast-opening, one-hand folders. Through colour photography and informed writing, the transition from carbon steel blades to damascus and from bone or stag handles to ancient ivory, pearl, titanium, and such exotics as giraffe bone and walrus tusk have been documented and forever immortalised within the pages of the book. It is treasured by knife collectors, enthusiasts, knifemakers and dealers.

About the Author Joe Kertzman has authored 12 editions of the Knives annual book, as well as the Art of the Knife, BLADE's Guide to Making Knives and four editions of Sporting Knives. Joe is also Managing Editor of BLADE Magazine.
