before purchasing it in order to gage whether or not it would be worth my time, and all praised Knopfe/Buttons: Geschichte Und Herstellung/History and Production (German Edition):

0 of 0 people found the following review helpful. This is a picture book and it is minimal at best. Still trying to figure out why is was ...By Simone Carbonneau KincaidIf you want history or information on buttons this is not the book for you. This is a picture book and it is minimal at best. Still trying to figure out why is was written.....

In daily life buttons go about their business quietly, and are seldom really noticed until one goes missing. But buttons have had an important influence on human beings, and therefore they have a remarkable life as art objects in their own right. This entertaining book covers the long and impressive history of buttons and their importance to mankind. From humble, utilitarian tools to impressive works of art and beauty, this book presents hundreds of buttons in their various forms and meanings.
