Sub-Standard Book, Ok for "some" InformationBy A CustomerWell I was really looking forward originally to obtaining the book but most of the "Pricing Values" are way off when it comes to today's actual markets and what these bottles are worth, it just seems to me you can basically learn most of the things contained in

the book for free or online by using simple search techniques or possibly just looking into online bottle resources. If you want to have some good Literature on bottles this is OKAY, but don't expect the prices to 100% Accurate and that's really the truth, some are WAY OFF. 1 of 1 people found the following review helpful. Good updated price list By #50 Good updated price list, wish there were a few more illustrations.....but now I have a go to price list that covers many different styles and a whole lot of eras. Probably the most complete book of its kind.
