Linn's Stamp Identifier

From Linns Stamp News : Linn's Stamp Identifier before purchasing it in order to gage whether or not it would be worth my time, and all praised Linn's Stamp Identifier:

2 of 2 people found the following review helpful. Hard to find the Book, Easy to find the stamps!By HalfmackerelVery pleased with this book. I bought it as a present for my Wife, who collects Thematics, and therefore comes across more obscure and smaller countries and Islands than usual.Many of them rely on production and sales of thematic stamps as an important source of revenue as well.Alphabetical characters not familiar to the West are well catered for, particularly China and Japan, where She had been struggling.This book delivers far more in its content

than it promises, and I would happily award it 4 Stars.0 of 0 people found the following review helpful. Linn's Stamp FinderBy CoachRoyThis is more of what I have been looking for, an up to date stamp finder that identifies which countries the stamps are from with lots of examples. Get this for collectors.

Designed to help you, simply, accurately and quickly, determine the origin of even the most obscure stamps. Includes an alphabetical listing of more than 2,000 inscriptions and over 500 large and incredibly clear stamp illustrations that enable you to locate the identity of the most difficult issues. Also includes listings for the Greek and Cyrillic alphabets, the various alphabets of India and a section devoted exclusively to Arabian and Oriental issues.
