Lionel Trains Pocket Price Guide 1901-2010 (Greenberg's Guide to Lionel Trains)

Kalmbach Books : Lionel Trains Pocket Price Guide 1901-2010 (Greenberg's Guide to Lionel Trains) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Lionel Trains Pocket Price Guide 1901-2010 (Greenberg's Guide to Lionel Trains):

I was looking for a guide that would give me a broad description of the various trains, accessories, etc. made by Lionel over the years (INCLUSIVE OF PHOTOS OF EXAMPLE ITEMS), along with a range of fair-market prices. Unfortunately, I found that this guide must be tailored to the experience, serious collector who already (and completely) knows Lionel stock. The guide has pages and pages of listings (a good thing), but they only include: Lionel Item Number; a five or six word description (no photos); excellent price; mint price. Again, perhaps a good resource for the experience collector. But definitely NOT helpful to someone like me who is trying to learn more about the Lionel family of trains and how to distinguish / recognize them. Sorry ... but I'll be returning my copy to .0 of 0 people found the following review helpful. I have tried the rest - I think this is the best.

This is the essential guide that collectors need before buying, selling, or trading any Lionel toy train or accessory. The latest edition of the famous Greenberg's Guide lists current prices and other reference information for prewar, postwar, and modern trains.
