## Make Time for Clocks

**Chris Wallace : Make Time for Clocks** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Make Time for Clocks:

There are some very interesting and delightful ideas for making your own clocks. Who would ever have thought to make one out of a purse?! There are also some I can do with my handy jig saw but others are beyond my skill level. You always want a book that pushes you to do more complicated projects and this book will do that. 0 of 0 people found the following review helpful. Five Stars By Steven Roberts Great patterns. 1 of 6 people found the following review helpful. Oops! By Susan Bishop I'd love to review this book, but SMOKYMTNBOOKS took my money and kept my copy. If you buy one, please post a review. I'd like to know what I'm missing. If you buy one, don't order it from SMOKYMTNBOOKS unless you don't want to receive it, either.

Thirty timely projects will have crafters assembling clocks in no time at all! From whimsical to sophisticated, there's a clock project for every decor: lodge rustic; English cottage; shabby chic; sporty; classic; kids; contemporary; retro; masculine; folk art; funky; artsy; French country; country; and ethnic. Sixteen well-known designers contributed projects, including Cheryl Ball, Barbara McGuire, Vivian Perrits, Lisa Shepard and Carolyn Steams. Crafters of all skill levels will feel comfortable making these clocks when following these clear and detailed instructions on the basic techniques of clock making, preparing and finishing wood products and painting. Projects use a variety of techniques: stitching, beading, painting, decoupage, stamping, stenciling, wood burning, leather crafting and faux finishing and a variety of materials: polymer clay, fabric, felt beads, and wire.
