KellerGreat item as advertized and really is a much needed book for the serious sword collector.List all the regulation US swords and shows much more than that.0 of 0 people found the following review helpful. very informative and interesting.By

SoldierInformative and interesting.0 of 0 people found the following review helpful. Great starting pointBy CustomerDecent book, there are many more variations and much more info known on many of these patterns- but an

ok place to start.

The first book devoted exclusively to the subject, this invaluable volume will aid collectors, curators, historians. Enhanced with more than 400 illustrations from rare documents, the book classifies and describes all major types of swords worn by the U.S. armed forces, cadets, and diplomats since the American Revolution to the end of World War II.
