Terrific Book!By Marilyn N. FiegI wanted to own this book years ago, but couldn't afford it. Bateman is my favorite living wildlife artist, I recognize many of the paintings in this book as pictures that I've seen in magazines or wildlife shows. I am delighted to be able to look them up and enjoy them right in my own home. This book is used, but in fine condition -- and I could afford it!0 of 0 people found the following review helpful. Stunning picturesBy Sharon BrayI have always appreciated Robert Bateman's wildlife artwork. Each and everyone of his paintings gives reverence to our wildlife creatures and in his paintings they come alive detailing their characteristics. Bateman is truly a master of our time. I would love to have personal lessons from him, but this book has great examples of his artworks.
