The Art of Star Wars Comics: 100 Collectible Postcards

Lucasfilm LTD. : The Art of Star Wars Comics: 100 Collectible Postcards before purchasing it in order to gage whether or not it would be worth my time, and all praised The Art of Star Wars Comics: 100 Collectible Postcards:

0 of 0 people found the following review helpful. Great assortment, great qualityBy P.Great assortment, great quality.

Each card has a small note on the back indicating the name and publication date of the comic along with the cover artist. Printing goes all the way to the edge, no unnecessary borders on the cards. One thing that is notable is that the older comics had barcodes that were on the front cover of each comic, for the post cards they were covered with white or black boxes. The same comics often had a top banner that read "Marvel Comics Group" and these were removed from the postcards as well. While the barcodes being covered is noticeable, the top banner not being there likely won't be noticeable unless you have an original to compare it to. I don't think either of these things detract from an otherwise great set of postcards.0 of 0 people found the following review helpful. Good Assortment, but an Outdated SetBy J.

CookeFirst things first, these are your standard sized postcards, so they don't require any extra postage. The card stock that they're printed on is thicker than most postcards you'd find in stores, so it'll hold up better in the mail. The covers on all of the cards are bright, vibrant, and crisp, unlike the photos in the Star Wars Frames: 100 Postcards set. The cons of the set are short, but worth mentioning. First off, the set is almost 10 years old, it came out in 2009 and hasn't been updated. Secondly, the box that it comes in has a solid spine and covers, but the retaining "walls" are just folded card stock that came crushed upon arrival.

Excellent Collection of Framable STAR WARS Art By Edward L Zimmerman This set, which is packaged very nicely in the displayed box, is an excellent collection of the artwork that has appeared on both the Marvel and Dark Horse STAR WARS comic books that have appeared over the years. Be warned: one significant variance from the actual cover art is that not all of the standard comic book warnings appear, so, despite the fact that these postcards -- which could serve as some terrific framable art -- are supposed to be full reproductions, they're really not. Now, is that a detractor? Well, what's a curious choice is that they chose to include, say, the white box that the text would've appeared in on the comic book cover BUT they're only removed the text. As a reproduction, some of them look a bit odd when the artwork is broken up by the appearance of an empty white box (??), but it is what it is. For the price, they're great. The only other drawback I'd mention is that the production of all of these aren't exactly perfect; some of them are not printed and cut to the same dimensions that appear on the original comic book cover (yes, I read most of the Marvel STAR WARS comic run, so I know what I'm talking about), and there are a few that are cut noticeably off center. Still, they're a nice collection, and they do the franchise justice.

The world of Star Wars comes to vibrant life in this postcard collection of 100 covers spanning over thirty years of comic book adventures in a galaxy far, far away. A treasure chest for comic book collectors and Star Wars fans alike.
