Most of them are storyboards, character designs and the rest are sketches, pastels lighting studies. They are all pretty nice. When you lay them all out, you'll see a lot of white (with drawings of course) because a lot of storyboards are featured.You'll see a few familiar pieces of art if you have the book Toy Story The Art and Making of the Animated Film. There are some new ones also, mainly from Toy Story 2 since there wasn't any art book released for the sequel. So you'll get to see character designs for Jessie, Stinky Pete and Bullseye.I counted two postcards that had art from Toy Story 3, one of which is a big pastel "3". That's a far cry from the product description "the set will feature an exclusive selection of art from the highly anticipated Toy Story 3". So much for marketing speak.The cutting of these postcards aren't perfect in the sense that they aren't all of equal size. Some are cut about

1mm off. Not a big deal but I do like every piece to be of equal size. I also have The Art of Pixar: 100 Collectible Postcards which are cut perfectly. If you're a big Pixar fan, this is for you. If you're looking to buy one as a gift, I would recommend "The Art of Pixar: 100 Collectible Postcards". (More pictures are available on my blog. I have bought the previous sets of the Art of Pixar, Volumes I and II, and was excited to find they had also released a set based on just the Toy Story Films. Yes, some of these cards have appeared previously in the other Pixar sets, but are still good to have again, as they are great cards from fantastic films. Like the previous editions, they have actual film frames, along with the development Artwork cards. I am looking forward to sending these cards to my friends, the young (who love the films) and the Young-At-Heart (whose Grandchildren love the films). Keep the products coming, gang! I will keep buying - they are great! Well Done! 0 of 0 people found the following review helpful. It's toy story! By Molly How could you not love this product?! Great artwork. This will put a smile on your face. I am using them as my guest book for my wedding. So excited.

The much-loved Toy Story films are among the most groundbreaking and creative animated features of modern cinema. Hitting stores just in time for Christmas, this postcard box celebrates the Toy Story world with 100 pieces of concept art, including lighting studies, sketches, and storyboards. Sure to please fans of every age, the set will feature an exclusive selection of art from the highly anticipated Toy Story 3, which will release in June 2010.
