BAKELITE PORN...By The realskinnyBAKELITE PORN.. is a book so full of amazing pictures, you lie awake thumbing through page after page imagining what it would be like to own such a treasure trove. Hold on to your dreams. while Bakelite is becoming harder and harder to find in an affordable (especially for the carved pieces) there are still stories of great pieces turning up at Garage sales or flea markets.it pays to know what you are looking at, how to test it, and develop an "eye" so that when you find that amazing piece, you saw it first and best from a great book resource.I love my bakelite books and this one is a great book for identification as well as plastic porn.0 of 0 people found the following review helpful. Bakelite BountyBy lindapoirierTrue vintage bakelite pieces in ABUNDANCE. I only wish I had one bracelet from each collector. I loved also faces with the collections. I like to collect some pieces of bakelite. It's a bit of a downer because you can't even find the pieces shown in this book nowadays. Alas, I still enjoy seeing the beautiful pieces.0 of 0 people found the

Wasn't wild about the limited scope of collectors. Seems to be mostly one collection by a couple. Not sure I didn't read it my girlfriend did.
