(Free download) The Beanie Baby Handbook

The Beanie Baby Handbook

Jeanette Long : The Beanie Baby Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised The Beanie Baby Handbook:

0 of 0 people found the following review helpful. Cooking With the Beanie ConnoisseursBy VDuring the heyday of the Beanie Baby craze, there were many price guides available for the collector to reference.The most fun and entertaining ones came from Les and Sue Fox. They had funny commentary for each Beanie which added to the fun and joy of collecting. They had predictions for when each then current beanie would retire. Its interesting for collectors to now look back and see which predictions came true and those that didn't.The last entry in their Beanie Baby

Handbook series was an unusual but appetizing one; Recipes of various food and drink attributed to various beanies. It starts off with the usual commentary but only for the May 1998 releases. Like any cookbook, the recipes are divided by sections. I've tried some of these and they are very good. The recipes have an adorable photograph of the dish with the attributed beanie beside it. The Fox family wrote the most entertaining beanie guides and this was their best one.

I was never a Beanie maniac, I only bought a few I thought were cute and still have them, never intending to sell them for a fortune. But as many of us do I remember those who thought they were going to get rich in Beanies. Les Sue Fox were independently publishing this book and ended up as NY Times Bestselling authors because of this "guide".... fun to remember! 0 of 1 people found the following review helpful. Two Stars By Susie J This book is out of date.

Contains full page color photos of all NEW Beanie Babies, and includes photos and current values for all 200 Beanie Babies. This edition includes 52 fabulous recipes from the authors and Beanie Chef Jeanette Long. Both previous editions have been on the New York Times Bestseller List, as well as on the USA Today Bestseller List. There are over 3 million copies of The Beanie Baby Handbook in print!

.com Craze come and crazes go. Hula-Hoops twisted themselves into oblivion, deely-boppers never quite made it out of the 1980s, and the worldwide obsession with the Spice Girls, well, without Ginger should the others now hang up their Union Jack micro-dresses as well? But one craze that isn't going anywhere is the obsession with Beanie Babies, those oddly endearing beanbag animals. This craze becomes easier to comprehend when you realize some retired Beanie Babies are fetching several thousand dollars at auction. With random Beanie Babies being retired every year, who knows what your Bongo the Monkey or Gobbles the Turkey will be worth in a few years? Beyond the mercenary level, Beanie Babies are also fun little toys to have around (but remember, keep the tag on or the value is seriously diminished). Les and Sue Fox's The Beanie Baby Handbook is an essential reference guide for Beanie Baby fanatics. Every known Beanie Baby is pictured in full color, with an estimate of its 1998 value and a speculative value for the year 2008. (Although this is only an estimate, who knows if Beanie Babies will hold their value like Microsoft stock does). Also included is some sensible advice for collectors--don't blow your life savings on one Beanie Baby; spend within your means! The Beanie Baby Handbook is jam-packed with essential Beanie tips and topics, and even includes the lyrics to the (unofficial) Beanie Baby song, "I want it! I want it! I want a Beanie Baby!" Sing it loud, folks. -- Naomi Gesinger
