The Book of Fountain Pens and Pencils

Stuart Schneider : The Book of Fountain Pens and Pencils before purchasing it in order to gage whether or not it would be worth my time, and all praised The Book of Fountain Pens and Pencils:

0 of 0 people found the following review helpful. Five StarsBy Michael MaguireNice reference; well organized and well written.0 of 2 people found the following review helpful. Five StarsBy Seung Ho KimFast shipping Smooth deal. All Satisfied12 of 14 people found the following review helpful. If ya want a coffee table book about pens,this is it!!By A CustomerIf you want a book with lots of colour photos to compare and admire,then this is the book for you.As all coffee table books,not exactly overflowing with information,but has more than the usual.

The Book of Fountain Pens and Pencils illustrates and describes over 700 never before illustrated pens and pencils. This companion book to Fountain Pens and Pencils: The Golden Age of Writing Instruments will excite collectors and dealers, while expanding their knowledge of this rapidly growing field of collectibles. In addition, sections of this

book deal with pen company advertising, pen repair, decoration, and valuation. Hundreds of manufacturers are represented in full color, life-sized photographs. A value guide is included.

From the Back Cover After the tremendous reception their first book received, Stuart Schneider and George Fischler went to work on this, their second volume. To their delight, despite their comprehensive study of fountain pens and pencils, there were hundreds that had not been included in *Fountain Pens and Pencils: The Golden Age of Writing Instruments*. This completely new collection will fill you with delight, as well. The colors, designs, and general creativity of the pens illustrated make it easy to understand why this is one of the fastest growing areas of collecting. As the authors say, "The hobby of pen collecting has mushroomed beyond expectations. We are witness to a hobby with incredible appeal throughout the world". While the first book illustrated over 1000 pens mostly made by companies like Scheaffer, Waterman, and Parker, whose reputation for high quality was known to collectors of writing instruments, there were many small pen companies that exhibited quality workmanship and individuality. While the familiar companies are included, this book will introduce more pens and pen makers, many of which will be unfamiliar to pen collectors. A value guide is included, which offers the pen collector or trader a reference to determine comparative values of pens. We hope you enjoy this new volume, and find it a useful, valued tool in your collecting life.

About the Author Stuart Schneider is an attorney in Englewood, New Jersey who has been collecting pens since 1975. He is the author of several books and articles. George Fischler is a senior research microbiologist with the Colgate-Palmolive Company and an avid collector since 1977. With his wife, Michelle, George sponsors the annual New Jersey Pen Show, and he is the Repair Restoration editor for *Pen World* magazine.
