Descriptions and photos are extremely helpful in the difficult process of identification of china and silver.84 of 87 people found the following review helpful.

Excellent to provide a foundation for knowledge to build on.By planetankhThis book is organized well, easy to understand and nicely illustrated. Provides a picture time line of the evolution of tableware and eating customs. Very interesting and helpful to the novice in developing an understanding of manufacture, style and utilization of table ware Readers shoul have an increased ability to identify pieces as to their origin, era and use. Only short coming was the

book did not provide illustrations of the manufacturers marks. The author talked about them but should have shown them as they can help with the identification of the piece.0 of 0 people found the following review helpful. Five StarsBy Kathy NeilsonI love it
