Santiago-llorensThe last of the Cartier Collection's books the result is a beautiful and imaginative record of objects made to entice and have that Joie de vivre that characterize the french. Lovely addition, don't let the price fool you, i'ts pricey because is quality.

This collectible luxury volume features the master jewelers most exquisite objects reproduced in color at actual size and including detailed technical specifications. Presented in a luxurious silk slipcase with ribbon closure, this tome is a tribute to the most precious objects in the Cartier Collection: from opulent gold and black enamel vanity cases set with platinum and rose-cut diamond fleurons to intricate Chinese powder compacts and diamond-encrusted platinum and onyx cuff links, these creations are works of art. This handsome volume recounts the history of the House of Cartier and its sublimation of often everyday items, illustrated with more than 550 pieces along with rare archival material.
