What else the publisher doesn't tell anyone trying to contact a high profile person for any reason, albeit simply a fan or raising money for a worthy nonprofit, is that a huge portion of addresses offered belong to the person's agency. Not do they share the info that most if not all agencies shred or return mail but you never know when you invest in hard copy mail printing, business cards, postage and time, that you have no real chance of reaching anybody that will ever be worth all the effort. I spent a lot of money working with this book, a lot, for nothing, and I'm pretty good, darn good at getting results from query writing. The book sucks. Anybody who bought it should due the publisher. I would if I had time to spare. Claudia Strasbaugh0 of 0 people found the following review helpful.
