This digest sized fanzine completely sucked me in and I ended up reading it cover to cover. The production is flawless and I found no typos. It was filled with tons of cover reproductions and the the two new prose stories had numerous illustrations. The Joe Wehrle Jr. cover was excellent and convinced me to buy this book. My favorite articles of course are related to the SF digests the article about H.L. Gold's run at Galaxy and the interview with current Fantasy Science Fiction editor Gordon Van Gelder. That article had the only one error I noticed when the interviewer stated TV Guide was no longer published. I have been a four decade long subscriber. True, it is no longer a digest (now the size of Time or People) and no longer weekly. It comes out about 30 times a year with numerous double issues covering two weeks. The Archie digests were a gateway to bring my pre-teen daughters into the world of reading, They loved them and I subscribed to a ton of them for them. I found that article very informative. Even the articles about magazines I never cared about like FATE and CORNET, I found interesting and has tempted me to look for back issues. And WOW the price is a steal . If you are a reader of any kind I recommend this wonderful new book for you. It is great I can't wait for the next issue. 1 of 1 people found the following review helpful. reminising By Terry KA great nostalgic look at all the digest sized magazines that replaced the pulps on the news stands. 1 of 1 people found the following review helpful.
